

Best fruit trees

for Auckland

1 *Feijoa Acca sellowiana*

- many cultivars available
- plant two trees for maximum harvest
- abundant supply in autumn

2 *Lime Citrus aurantiifolia* 'Bearss'

- small seedless fruit
- abundant supply in early winter

3 *Mandarin Citrus reticulata* 'Satsuma'

- easy to peel
- ready to eat June/July

4 *Meyer lemon Citrus x meyeri*

- ripens in winter but often carries fruit year round

These Star Performers are plants of proven excellence in suitable conditions in Auckland. These outstanding fruit tree varieties produce abundant harvests without pesticide applications.

Persimmon

Diospyros kaki 'Fuyu'

- glossy green foliage that turns red/orange in autumn
- delicious sweet fruit

Plum

Prunus domestica 'Hawera'

- red fleshed fruit
- self-fertile

Plum

Prunus domestica 'Luisa'

- large yellow fruit flushed red
- sweet and juicy

Tamarillo

Solanum betaceum

- red and gold varieties
- protect young trees from frost

Recipe for success:

- Select a site with free draining soil
- Work compost into the soil at time of planting
- Stake tall fruit trees when planting to avoid damaging the roots
- After planting, apply organic mulch
- Apply general fertiliser annually
